WORK EXPERIENCE

Junior Trading Card Game (TCG) Fulfilment Coordinator
Good Games Australia
Mar 2023 – present | Parramatta, Sydney Australia

- Picked, packed, and shipped online TCG orders to customers via AusPost.
- Used Shopify and Starshipit to manage orders and streamline the shipping process from purchase to delivery.

Intern Engineering Consultant
Jacaranda Flame Consulting
Jun 2024 –Jul 2024 | Sydney Australia

- Worked on improving an existing dog auscultation model with the University of Sydney Veterinary Science Skills team
- Proposed and led a change in the overall system implementation that enabled non-technical users to setup and use the auscultation model with more ease and control.
- Led the development of a local application in Python's TKinter library to control and customise the existing model.

Team Member
Bunnings Warehouse
May 2022 – Mar 2023 | Sydney Australia

- Worked in the Paints department, in a customer-facing role selling paints and related products, as well as stock replenishment.
- Attended additional training with companies like Taubmans to increase overall product knowledge.

Coding Instructor
Junior Engineers
Feb 2022 - Apr 2022 | Sydney Australia

- Taught primary school students programming concepts through Minecraft Education
- Coordination and implementation of various lesson plans based on students' level of programming experience.

Volunteer
Save The Children - Non-profit organization
Jan 2021 – May 2021 | Penrith, Sydney Australia

- Worked as a volunteer for the Penrith branch op-shop between university semesters.
- Assisted co-workers with general technological knowledge and use of computers, printers, and other technologies.

EDUCATION

Bachelor of Engineering – Software Engineering (Honours Class II, Division1)
The University of Sydney, Sydney NSW.
